

LETTER OF PROTEST

To the international community, human rights organisations, and public opinion:

RE: Denunciation of grave human rights violations against Omar Campoverde — political prisoner of the Daniel Noboa regime in Ecuador — including torture, degrading treatment, rape, and crimes against humanity.

Sit-in for Dignity. Human dignity cannot be imprisoned.

From **SolidarioGB**, from the **Commitment for the Foundation of Chile**, and in my capacity as **candidate for Lambeth ShakeItUP**, we raise our voice with the resolve of those who have not forgotten that human dignity is not negotiated, not tortured, and not violated.

Enough of torture and state violence!

Omar Campoverde is not a number. He is a man, a comrade, a political prisoner whose life, integrity, and dignity have been systematically attacked by the repressive apparatus of the **Daniel Noboa** government. The reports emerging from Ecuadorian prisons echo a sustained practice: **degrading treatment, torture, rape** — tools of state terror to break resistance and sow fear.

This is not an isolated excess. It is **state policy**. It is a crime against humanity.

We demand from the Ecuadorian state:

- **Truth** about what has happened and what continues to happen in the shadows of the prisons.
- **Justice** that is real, not simulated, for Omar Campoverde and all political prisoners.
- **Guarantees of protection** for his life and physical and psychological integrity, immediately.
- **Independent investigation** that is not an administrative farce.
- **End to institutional violence** that normalises torture as a method of social control.

Against torture and impunity, organisation and memory.

The memory of our peoples — of those who were disappeared under dictatorships, of those who were tortured for speaking the truth, of those who had to change their names to survive forced assimilation — compels us not to look away. Omar Campoverde's dignity is our dignity. His tortured body is the body of all peoples who resist.

The government of **Daniel Noboa** is responsible. There is no excuse, no justification, no security law that legitimises torture. Impunity is not an option.

SolidarioGB will not remain silent. **The Commitment for the Foundation of Chile** will not remain silent. **Lambeth ShakeItUP** will not remain silent.

Freedom for Omar Campoverde! Justice and reparation! Let the mask of a torturing state fall!

Signed:

 SolidarioGB	For dignity and internationalist solidarity!
 Commitment for the Foundation of Chile	For the Refouding of Chile!
 Candidate for Lambeth ShakeItUP	For Comunal Assemblies!
